MAINTENANCE & DURABILITY

Cotrack mobile cone crushers are designed to be durable with long-life servicing due to the robust frame and the wear-resistant components. Parts subject to wear are easily accessible and replaceable. Moreover, we make sure that maintenance to be totally safe and secure.

HIGH CAPACITY & FINE SHAPE

Simplicity has always been key. Simplifying the use of a complex machine is what the Cotrack mobile cone crusher is about. Controls are done through a wireless remote or with cables. Turning on the mobile cone crusher is as easy as pushing the start button.

COST-EFFECTIVENESS

Considering the low fuel consumption and the low need for maintenance, these machines operate at the lowest overall cost possible. Moreover, its high uninterrupted uptime and high capacity crushing make these mobile crushers very profitable.

COTRACK MOBILE CONE CRUSHER BPC 200

CAN EASILY BE COMBINED WITH OTHER BORATAS MOBILE MACHINES AS TANDEM WORKING.

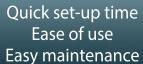

EASY TO TRANSPORT DUE TO FOLDABALITY BUILT FOR HARSH SITUATIONS INCLUDING EXTREME WEATHER CONDITIONS

WEIGHT: 52,000 kg	LENGTH (mm)	(mm)	(mm)
TRANSPOR	T 17,100	3,350	3,650
OPERATION	16,150	3,350	4,630

Diesel-electric drive Full hybrid Environment-friendly

Track-mounted High mobility On-site flexibility

COTRACK MOBILE CONE CRUSHER

The Boratas® Mobile Cone Crusher BPC200 from Cotrack series is able to provide large reduction ratios and an excellent cubical shape at high output capacity. They are used in various applications such as aggregate crushing, mining, and recycling. Moreover, this machine is ideal for contractors or aggregate producers working in urban regions thanks to its compactness, mobility, and dust reduction system.

Using Sandvik cone crushers, these units are high-performing crushers able to crush medium to hard natural stones, even those with abrasive varieties.

Cotrack hybrid mobile cone crushers come with multiple sizes and features and are supplied as standard or customized versions.

Features & Benefits

Optional Features

for conveyors

Hardox Armoured Bunker

Dust-reduction system

Variable Concave selection

Main conveyor cover

- Featuring highly efficient Sandvik CH440 cone crusher • Automatic lubrication system
- Operates on electricity or diesel
- Hydraulically Adjustable bunker feeder
- Wireless remote control
- PLC control system
- Drum motors for conveyors
- Belt feeder
- Lightning Arm

Control panel

Based on PLC system, LCD touch screen shows all details which are running at the moment.

Remote Control

Walking control, speed of the feeding belt, and functionality of components can be adjusted

Hybrid Drive

Easy plug-in socket for switching from diesel to electric drive of a sudden.

Hopper

Capacity: 4.5 m³

• Width: 910 mm

• Length: 6000 mm

Hopper with crash bars

Tracks

- Width: 500 mm
- Twin Speed Mode
- Heavy Duty Type

Power

Dual Power

PLC Control

screen

• Full control via PLC

panel including touch

- Diesel
- Electric

Metal Detector

Magnet over belt

Belt Feeder

- Width: 1050 mm
- Double Drive Adjustable Speed

Cone Crusher

 CH440 EC Sandvic Automation: ASRi option

b

 Easy and safe control over all individual parts as well as crawling-tracks

• Max feed size: 47 mm - 250 mm

Hybrid Power

 Fully hybrid · Can perform with diesel or simply plugged into electricity
